PROJECTS

Portfolio, (Github) (Demo) — April 2025
Tech Stack: React, Tailwind CSS, Framer Motion A personal portfolio website showcasing my projects, skills, and my contact information. Built with React and styled using Tailwind CSS, it features smooth, interactive animations powered by Framer Motion.

SwadExpress, (Github) (Demo) — April 2025
Tech Stack : HTML, CSS , JavaScript, React , React-router

Swad Express is a multipage food delivery platform featuring React Router for smooth navigation. It includes a cart and checkout system, along with a filter to easily search dishes by type. The site ensures a seamless user experience across multiple pages and devices.

Dice Game, (Github) (Demo) — April 2025
Tech Stack: HTML, CSS, JavaScript, React A fun and responsive dice game where players guess a number between 1 and 6. If the guess is correct, that number of points is added to the score; otherwise, 1 point is deducted. Built with React, it features smooth animations and real-time score updates.

E commerce filteration, (Github) (Demo) — March 2025
Tech Stack : HTML, CSS, JavaScript, React This is a simple yet functional shoe e-commerce website built using React. It features a clean user interface with product listings, along with integrated **search** and **filter** functionalities to enhance the user experience.
